

ES2 WS2-11

# **ES² WS2-11 Summary**

**Agreement that the documentation the FAB SC to be provided to EC consists of these 3 main elements(?):**

**1- Arrangements (States/States-NSAs/NSAs-ANSPs/ANSPs)**

**2-SMS Road map (tailored approaches)**

**3-Statement that FAB related operational changes have been subject of Safety Assessment(s)**

## **Issues requiring further clarification and coordination among FABs:**

- Variations about the FAB SC Claim (acceptably safe or compliance with IR)**
- Involvement of military (military providing services to civilian traffic and related safety oversight, military usage of airspace TRAs/TSAs, air policing)**

## **Proposed way forward:**

- ECTL to investigate the military involvement and report**
- need for another ES<sup>2</sup> WS to finalise harmonised approaches? Use ½ day in Ljubljana WS to finalise the joint position**
- FABs to share evolutions of their safety material through ECTL**
- ECTL to put together the outcomes of this WS and further bi-lateral discussions and propose a pan-ANSP common position (could try to amend the Guidance)**
- Present and Discuss it at the joint session SRC/Safety Team**
- Propose the approach (“means of compliance”) to EC to mitigate the risk of divergence on the FAB SC reviews**
- Issue a press release after the WS announcing the common view**
- Safety policy across-FABs (not for Press release)**

## **Proposed way forward:**

- FAB SC is not a SC by SC methodology**
- Top Level claim – safety arrangements ... - think further on that**
- Use the group to progress the work**
- Engage regulators/NSAs**

# [ES]<sup>2</sup> 2011 Programme

(Version 0.8 15-05-11)

TITLE	CONTENT	TARGET AUDIENCE	DATES	LOCATION
WS 1-11 <i>Governance &amp; Cost of SMS</i>	Safety Key Performance Indicators-KPIs & Analytical Hierarchical Process-AHP Cost of SMS and Safety Targets	Safety managers Line Managers Safety Specialists (OPS & TECH)	15-16 March	Brussels EUROCONTROL HQ
