Cybersecurity

- Is safety and cybersecurity managed by the same part of your organisation or by different parts?
- How many of your safety people really understand cybersecurity?
- How many of your security people really understand safety?
- How many of your risk assessment processes describe the touchpoints between safety and security?
- Do you see safety and security as well-aligned, in contradiction or both?

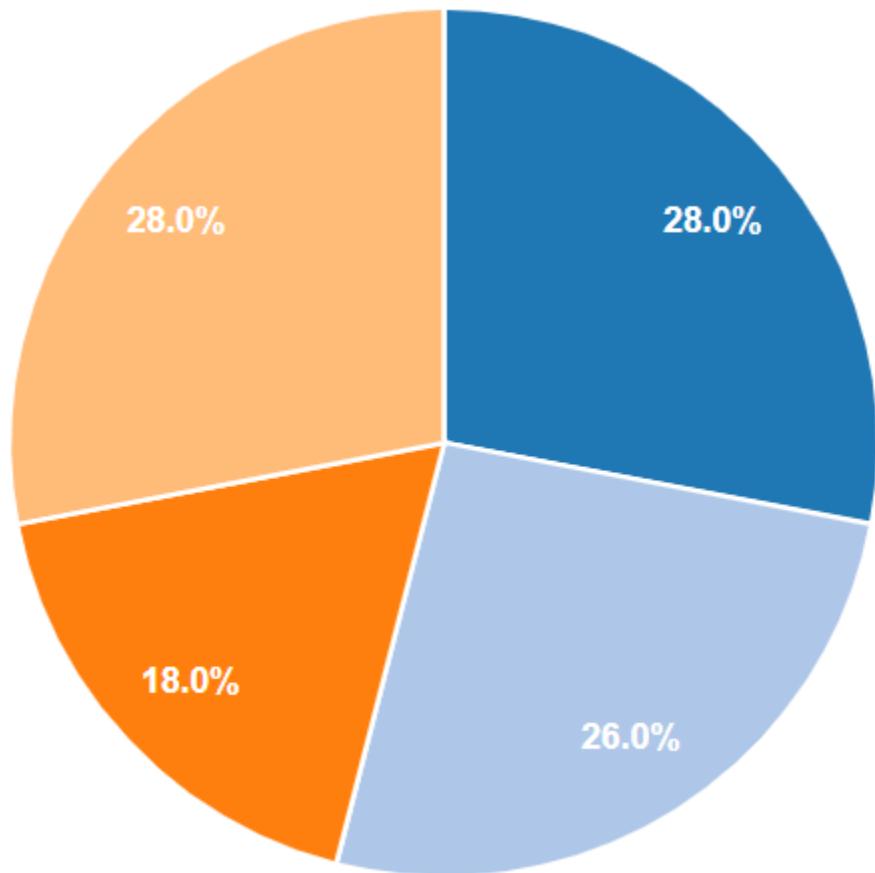

Awareness and Understanding

Do You Know What Cybersecurity Is?

Awareness and Understanding

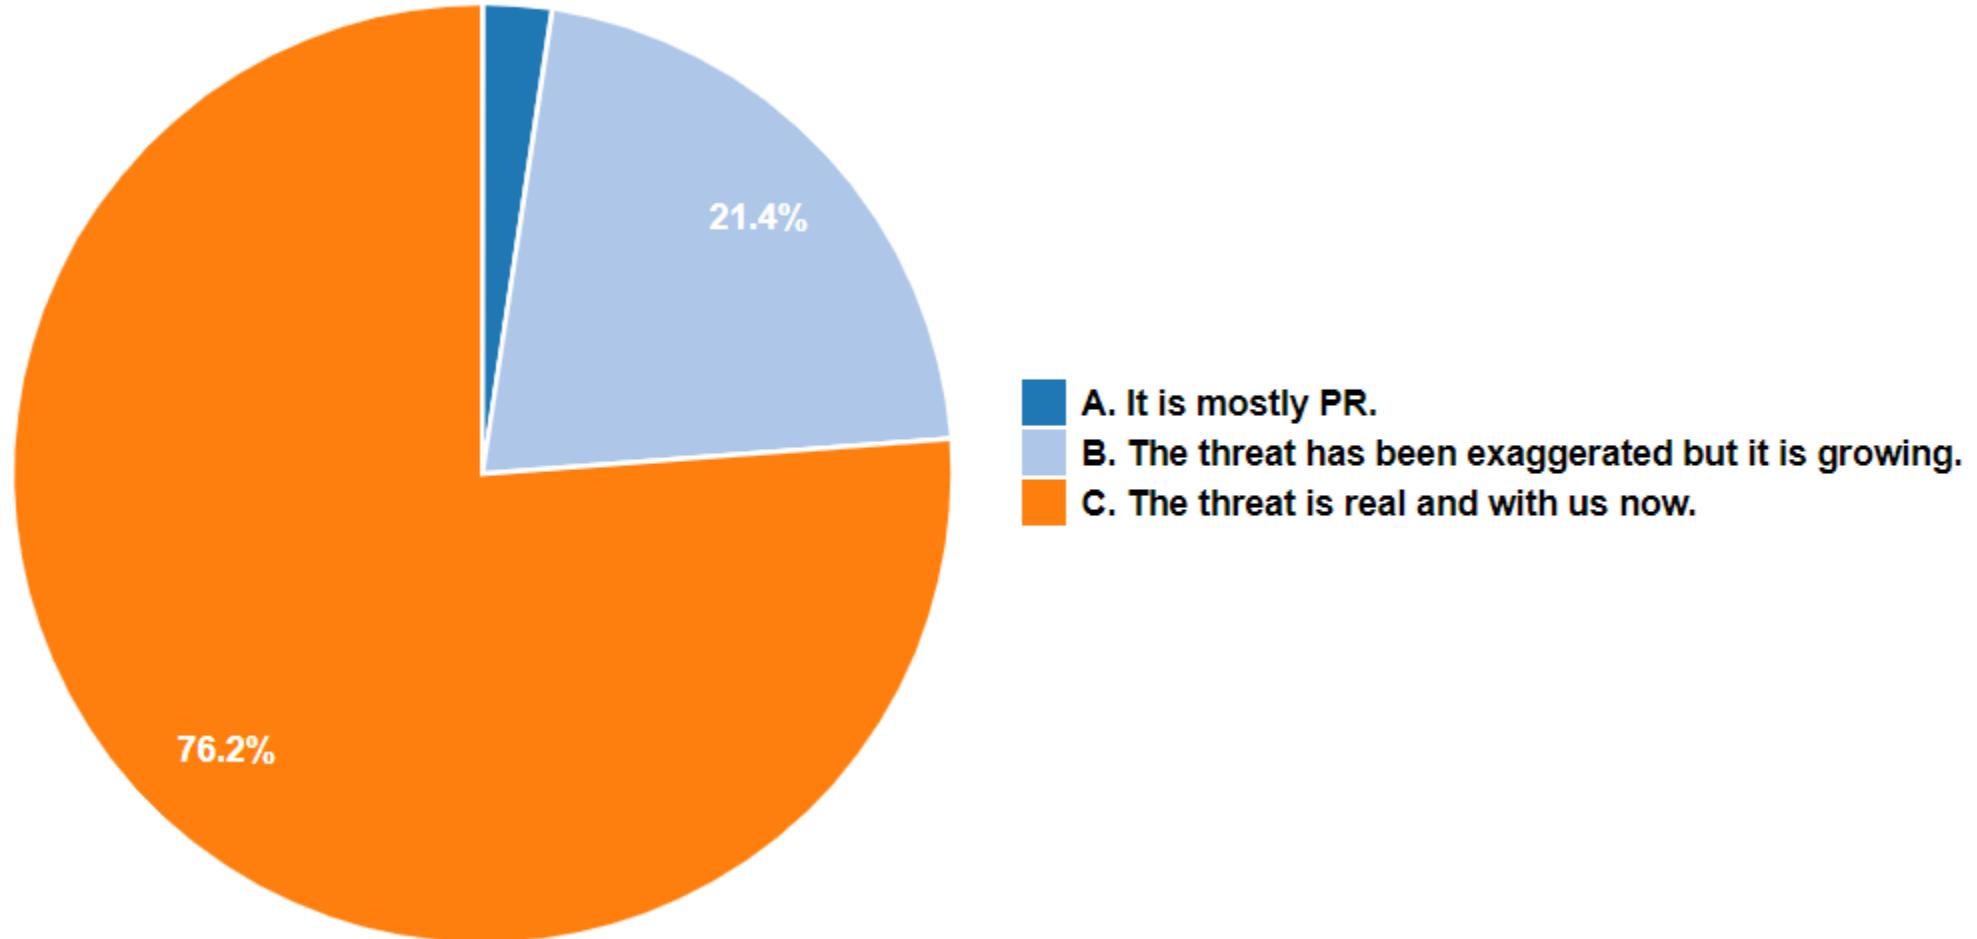

What Are The Cyber Risks And Threats For Your ANSP?

- █ A. We have a documented cyber risk/threat assessment considered regular...
- █ B. We have a documented cyber risk/threat assessment that has been disc...
- █ C. We have a cyber risk/threat assessment but it is not routinely updated.
- █ D. We do not yet have a documented cyber risk/threat assessment.

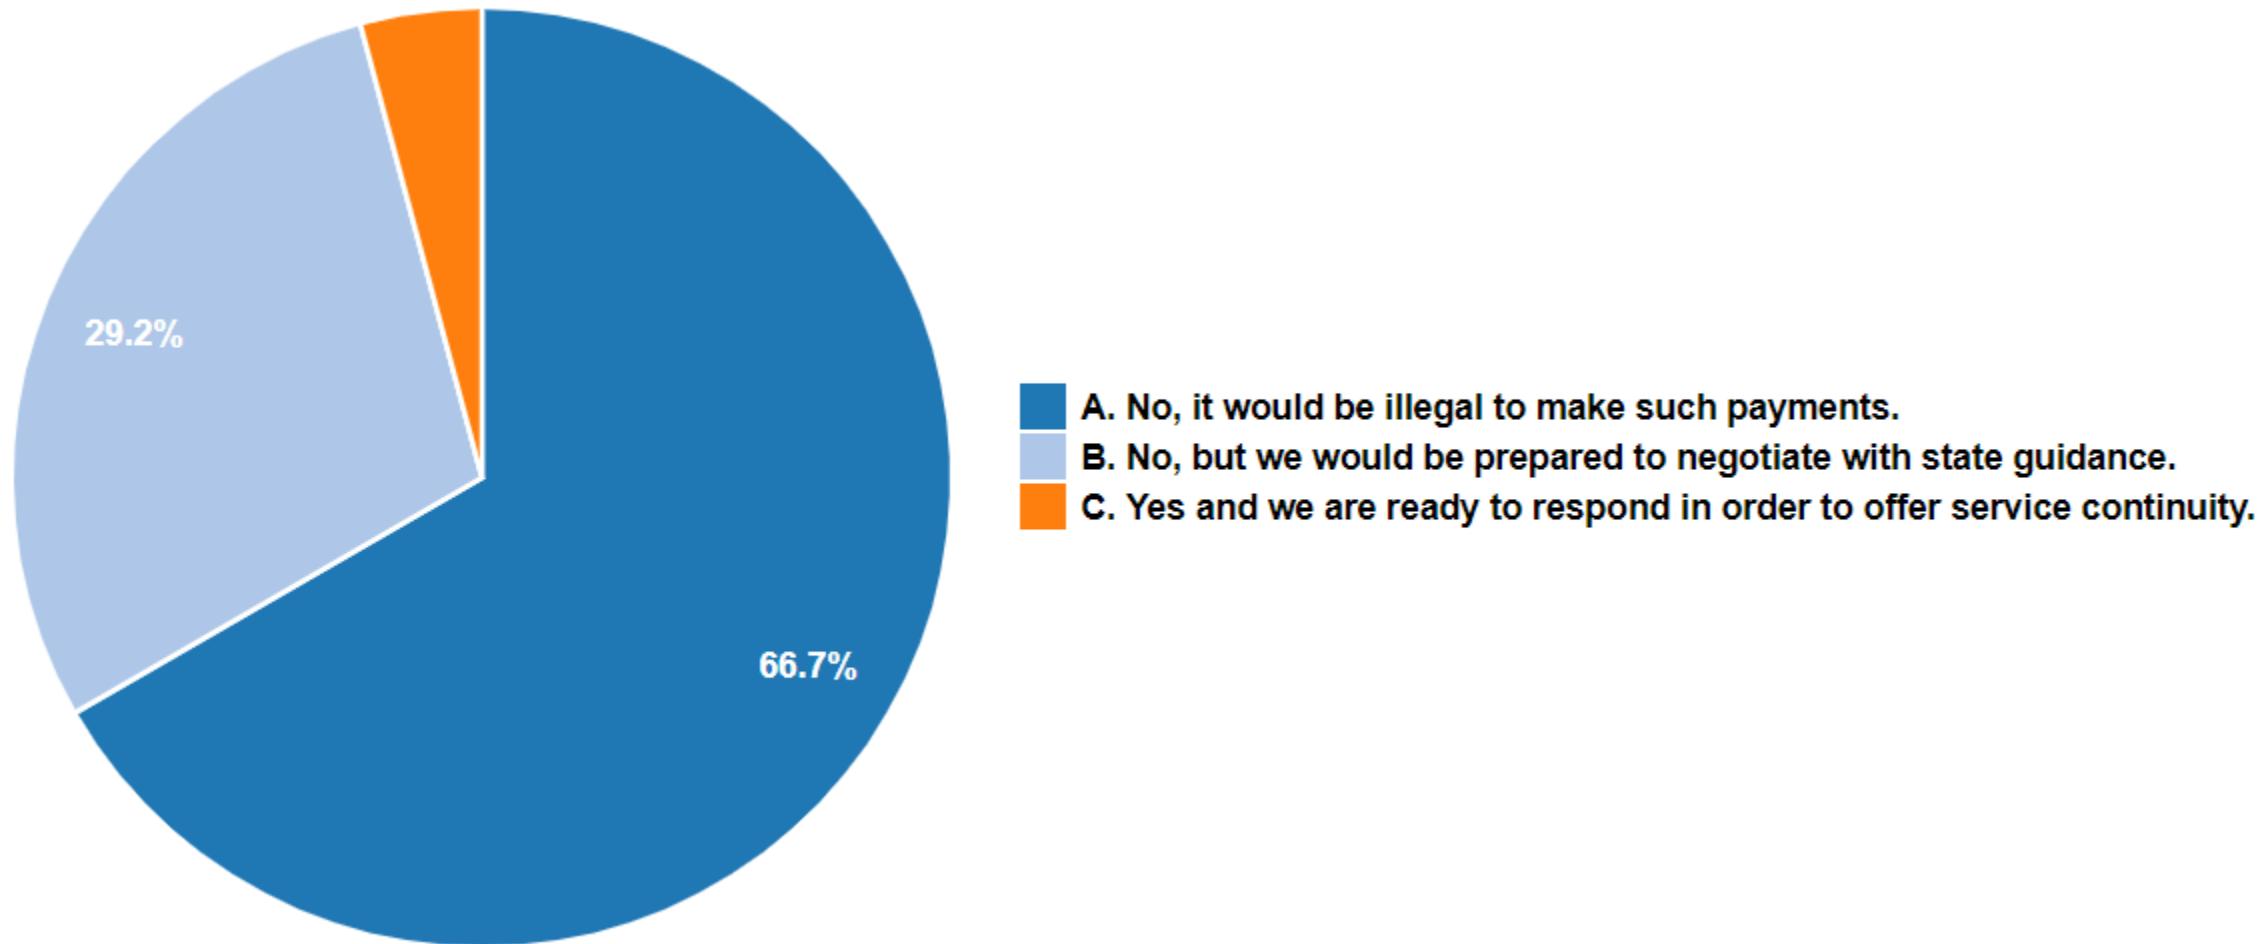

Awareness and Understanding

Do You Perceive Any Real Safety Impact By Cyber-Attacks Or Is Just PR?

Investment

Have You Foreseen A Budget To Pay In Case Of Ransom Attack?
