

# SKYbrary Bookshelf Help

## About the SKYbrary Bookshelf:

- The Bookshelf contains a large number of Further Reading reference documents in .pdf format
- The documents are listed in alphabetical order and show the author of the document as well as the date it was uploaded onto the Bookshelf
- The title of documents generated outside of EUROCONTROL begins with the organisation concerned.
- When you click on any [document title](#), a new page is displayed providing a short Summary of the document and shows which SKYbrary categories it is linked to.
- Click on [view this book](#) to display the document or click on [bookshelf](#) to return to the main Bookshelf list of documents.
- To return to the Bookshelf from the document, click Back  twice on your browser.

## How to search for items on the Bookshelf:

- On the top of the Bookshelf page, there are four search fields to choose from.
- To search for all documents with a specific word in the article summary, enter that word in the **Summary** box and click 
- To search for all documents associated with a specific SKYbrary Category, select the Category from the drop down menu in the **Category** box then click 
- To search for all documents by a specific author, enter the name in the **Author** box and click 
- To search for all documents with a specific word in the title, enter that word in the **Title** box and click 
- There is no facility to search the documents themselves.
